<i>Installation</i>	wall mounting
<i>Glueboard</i>	290*290 mm

ENTO MOON is a premium UV LED fly control unit, entirely **Made in Italy**. It ensures superior capture performance for both lepidopterans and dipterans, which are trapped discreetly and efficiently by the integrated glue board.

Key Features & Performance

- **High Efficiency:** Equipped with two specialized LED modules, it delivers power comparable to a traditional **20W fluorescent tube** while significantly reducing energy consumption.
- **Robust Construction:** Available in high-quality **painted metal** or **stainless steel**.
- **Custom Aesthetics:** The standard finish is a sleek **Silver Grey** (epoxy powder coating). However, ENTOLED can provide custom colors upon request to match any interior.
- **Low Maintenance:** LED modules only require replacement **once every 3 years** and feature a **quick-coupling connector** for effortless servicing.

Compliance & Applications

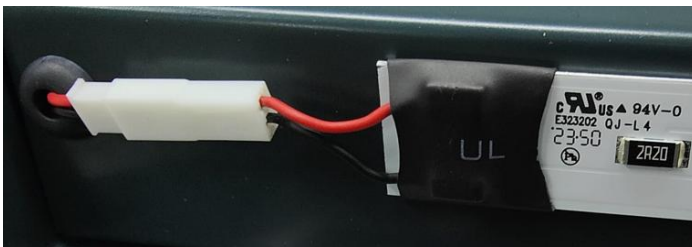

ENTO MOON fully complies with **HACCP food hygiene regulations**. It is the ideal solution for the entire food supply chain, particularly for public-facing areas such as:

- Shops & Boutiques
- Bars & Cafés
- Restaurants
- Hotels & Hospitality venues

All ENTOLED units can be **customized with your company logo**. Please contact our sales department for further details and agreements.
