1001 Single module lamp 6 LED UVA 365 nm

<i>Coverage</i>	60 m ²
<i>Led type</i>	3535 High Power
<i>Led number</i>	6
<i>Power</i>	7,2 W
<i>Wavelenght</i>	365 nm
<i>Emission</i>	120°
<i>Structure</i>	Painted metal –stainless steel version available
<i>Available colours</i>	Grey silver – More colours available upon request
<i>Sizes</i>	514*152*87 (h) mm
<i>Weight</i>	2,45 kg
<i>Protection index</i>	IP20
<i>Installation</i>	wall mounting
<i>Glueboard</i>	420*115 mm

ENTO Cafè is a premium UV-LED fly control unit, **entirely manufactured in Italy**. It ensures exceptional capture rates for both lepidopterans and dipterans, which are trapped discreetly and efficiently by the integrated glueboard.

Key Features & Performance

- **High Efficiency:** The specialized LED module delivers performance comparable to a standard **20W fluorescent tube** while significantly reducing energy consumption.
- **Durable Construction:** Available in high-quality **painted metal** or **stainless steel** to ensure longevity in professional environments.
- **Custom Aesthetics:** The standard finish features an epoxy powder coating in **Silver Grey**. However, ENTOLED can provide custom colors upon request to match any interior design.
- **Low Maintenance:** The LED module features a **quick-coupling connector**, allowing for easy replacement only **once every 3 years**.

Compliance & Applications

ENTO Cafè fully complies with **HACCP food hygiene regulations**. It is specifically designed for use throughout the food industry supply chain, with a focus on public-facing areas such as:

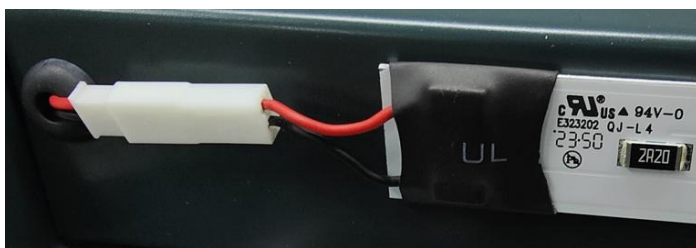

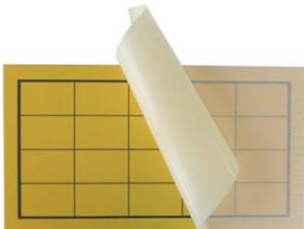

- Shops & Boutiques
- Bars & Cafés
- Restaurants & Dining areas

Customization

All ENTOLED units can be customized with your company **logo**. Please contact our sales department to discuss branding options and agreements.
